

## **Local Weekend Rider's Workshop** Let's Ride Together!

### **INVISIBLE ROADS**

I invite you to spend the day riding some of the very best roads in our region. I call them Invisible Roads. It's where the hills and curves are, and best of all, there's no traffic! Learn how to discover your own Invisible Roads. Once you learn this navigating skill, you won't want to ride mainstream roads again.

### **READING THE ROAD FOR SAFETY**

Suddenly Invisible Roads become visible indeed, as you learn to position your motorcycle, your eyes, and your mind for safety and for the clearest view of the road ahead. You will become skilled at studying the pavement and your surroundings for maximum safety.

### **COMMUNICATION**

We'll use my bike-to-bike communication system. That way, no one gets lost and I can suggest safety skills as we ride along.

### **COST**

\$100. Five Motorcycles Maximum.

### **DATES, TIME, LOCATION**
